

A woman with voluminous, curly, light brown hair is sitting on a dark brown leather sofa. She is wearing a simple, short-sleeved, beige t-shirt and blue denim jeans. She is looking directly at the camera with a slight smile. The background is a bright, blue-tinted outdoor setting, possibly a patio or balcony, with a white wall and a window. There are some woven baskets and cushions in the background.

ABOUT US **BLANKS**

AMERICAN MADE

It's not always easy, but we believe that creating product domestically is important. By not cutting corners in production, we can better represent the integrity and values of our customers.

SUSTAINABLE

We support slow-fashion, quality and kindness above all else. Our sustainable knits utilize organics, alternative fibers and recyclables. US Blanks is a musically inspired, animal caring, planet loving brand.

QUALITY

Our collections are filled with retail-ready high quality basics. From fleece joggers to muscle tanks, our collections are designed with classic and timeless knitwear styles to forward leaning silhouettes.

AMERICAN MADE BLANKS

US Blanks was founded in 2007, in Los Angeles, California. A place that we continue to call home. To this day our collections are fully designed and crafted in America. From design and development, to fabric production at our textile mill, and in-house garment cut & sew, everything is locally sourced.

SUSTAINABLE BLANKS

We've done a deep dive into sourcing sustainable fabrics, offering styles in organic cotton, Modal from beech trees, hemp yarn blends, and upcycled and recycled fabric. Our cutting floor scraps are collected for upcycling, and our wash test yards are taken to the North Central Los Angeles Animal Shelter where they are used for bedding.

QUALITY BLANKS

Our mission is to create a bespoke experience for both wholesalers and retailers alike. We house more than 200 retail-ready styles that are both classic silhouettes and trend focused. US Blanks oversees the entire garment production process at our in-house cut and sew factory. This ensures that every stitch is correct. From the wash to the needlework- we take great pride in our product.

HOW WE GIVE BACK PROJECT US

PROJECT US is a 'give-back' initiative created by US Blanks.

We partner with causes, charities, not-for-profits and other well-intentioned organizations, helping them raise awareness and funds.

We sponsor events, donate t-shirts and offer deep discounts, and use our platform to spread the love.

As part of Project US and in an effort to minimize our environmental impact, US Blanks keeps all manufacturing local.

We cut, sew, dye and finish all our styles in LA, helping to create jobs, and support the local community.

Many studies show the average t-shirt travels over 15,000 miles from its raw material stage, through the supply chain, and finally to the back of an average US consumer. Our fabric travels less than 5 miles from our knitting mill to us!

So, don't just buy more - buy local, buy sustainable, and just buy better.
